Improving Health, Housing, Education and Livelihood of the Poor in the Philippines (a 501c3 Foundation)

## 2.8 Hectare Fishpond purchased by IHHELPP

A wonderful opportunity for IHHELPP to acquire a fishpond took place this month when Sis. Dimla, an engineer by profession, envisioned a project that can help members and non-members alike. The fishpond is located in Pagbilao, Quezon, and nestled in a serene place. Sis. Dimla expressed, "What a blessing that our Heavenly Father helped us to acquire a fishpond with an approximate area of 2.8 hectares. It is really a miracle that happened. The fishpond is beautiful and will be a good livelihood project of IHHELPP. Another 3 hectares have about 100 coconut trees. We can plant mangoes and calamansi." The Bureau of Fisheries and Aquatic Resources donated 10,000 milkfish ("bangos" fry) which will be added to the baby shrimps and crabs. We look forward to a bountiful harvest in May and onwards!

## Rising up to the Challenge

We recognize these companies who assisted IHHELPP's rescue in the midst of Haiyan in the Philippines. These companies donated their resources in providing disaster proof housing to Filipinos in Tacloban and the surrounding areas. We applaud you for your generosity and kindness!

**Adobe Systems Incorporated** is a multinational computer software company focused on the creation of multimedia and creativity software programs. Adobe is headquartered in San Jose, California, United States. Adobe focuses on Internet application software development and is known for the Portable Document Format (PDF), Adobe Creative Suite, and Adobe Creative Cloud ([www.adobe.com](http://www.adobe.com)).
